

Model RWD
Wall Mount Damper

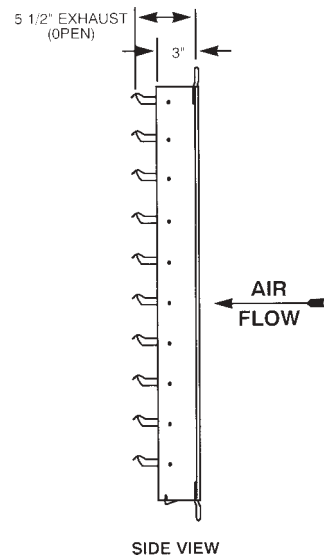

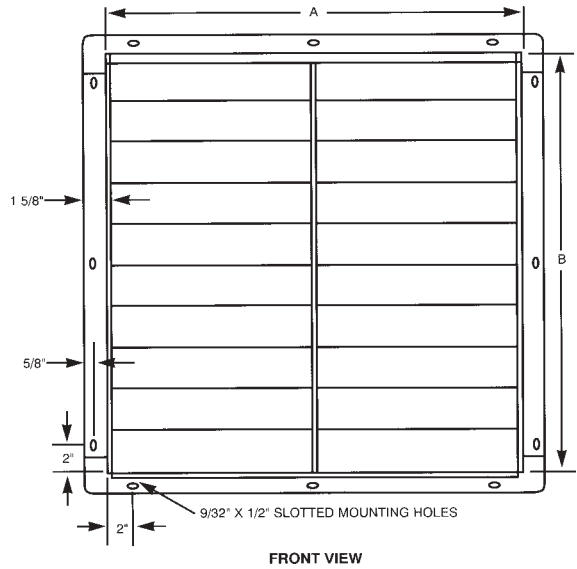

Features:

- Frame is 19 ga. G-90 galvanized steel.
- Weather stripping is a part of the frame construction giving additional strength to the frame.
- Ample 9/32" x 1/2" mounting holes.
- Blades are 26 gauge aluminum.
- Blades have tie-rods to allow for uniform opening and closing.
- Felt seal on leading edge of blade for quiet closing.
- Blades open freely to allow full opening and closing.
- Flanged ends of blades result in a more effective weather protection.
- Stainless steel bushings & pivot pins.
- Maximum velocity is 2600 fpm with standard propeller fan.
